Stop Hunting for Manufacturing Operations Information

Do you find it hard to get the manufacturing data you need to run your business? Phone calls and emails to the same person over and over? Complex software that delivers more information than you need . . . at a price you can't afford?

How would you like an affordable and easy way to view manufacturing information that actually matters to you?

FactoryWidgets: Just Right!

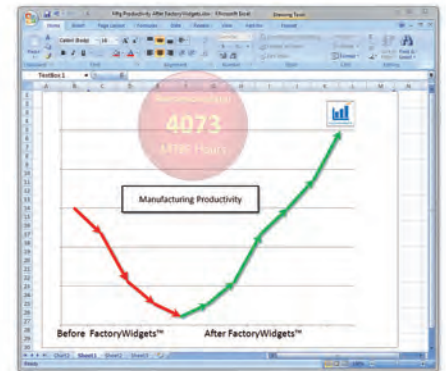

Along with weather, news, and stock trackers, FactoryWidgets conveniently reside on your desktop.

They deliver easy-to-read, live indicators of data such as production rates, energy usage, order goal attainment, yield, safety, and asset utilization—to name just a few.

Data is displayed how you want it and won't distract from your other work.

Stay on top of your manufacturing operations with FactoryWidgets.

Information you need, where you need it.

Translucent FactoryWidgets complement your multi-tasking work style. When you want more detail, a click on the FactoryWidget launches a browser to deliver the details behind the data.

FactoryWidgets pull data from OPC and Wonderware sources all over your enterprise and display it to your specifications, right on your PC's desktop. FactoryWidgets let you stay on top of manufacturing operations from individual site locations as well as global businesses.

FEATURES

- Sits on your desktop where you want
- Configure units of measure and title on each Factory Widget to match your business terminology
- Set colors on each Factory Widget to suit your needs
- Link FactoryWidgets to drill down to detail behind the data
- Suitable for desktop, laptop or shop floor message displays
- Simple setup: no complicated software to install on the client PC; no web browser to open
- Connect to OPC and Wonderware data sources locally or throughout your enterprise
- Centrally managed licensing
- Affordable pricing

REQUIREMENTS

- Windows XP SP3, Vista, 2008, 2008R2 or 7 on the user desktops.
- Windows Server 2003/2008/2008R2, Windows 7, or Windows XP for the WidgetServer
- Access to OPC DA data sources or Wonderware Historian

ORDERING FACTORY WIDGETS

FactoryWidgets are a simple, no-hassle, affordably priced, productivity-improving investment in your business.

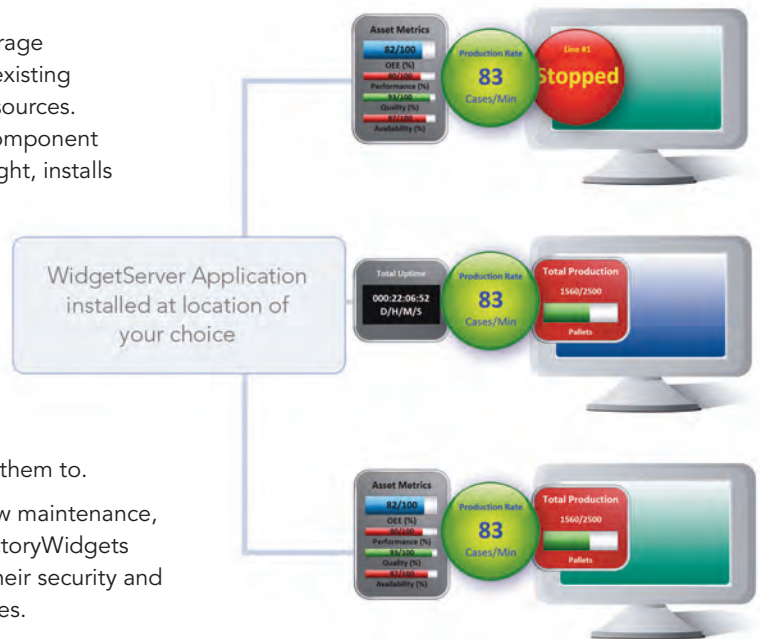

Contact your local FactoryWidgets distributor or visit FactoryWidgets.com. FactoryWidgets are available for Internet download or by physical CD media delivery or both.

FactoryWidgets leverage your investments in existing manufacturing data sources. The WidgetServer component (included) is lightweight, installs in minutes and connects to existing data sources.

FactoryWidgets are secure and read-only. They do not burden your network; updating only when you need them to.

Easy to setup and low maintenance, IT teams will find FactoryWidgets honor and support their security and management practices.

Users get the data they want, how and when they want, without a need for ongoing IT support.

FactoryWidgets reside on users' computers and pull their data from the included light WidgetServer application that connects to your manufacturing data sources.
